Projects

IFA Internship Fit Analyzer [Github Link]

Built an AI-powered resume analysis API that scores how well a candidate's resume matches a job description using BERT semantic similarity, TF-IDF keyword matching, skills extraction, experience, and contact profile validation. Performed end-to-end testing and debugging to ensure accurate scoring across diverse resume formats.

Loan Prediction System [Github Link]

Loan Approval Predictor is a Streamlit machine learning app that trains a Decision Tree classifier on a loan dataset and predicts whether a new loan application will be approved or rejected.
